The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 10 is rejected under 35 U.S.C. 102(b) as being anticipated by Poston.

See Fig. 5, where a plunger and handle are seen covered by a container which includes a vegetation holder at its upper portion where a flower is depicted.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 11 is rejected under 35 U.S.C. 103(a) as being unpatentable over Poston, as applied supra, in view of Kent.

Kent, viewing Fig. 8 teaches a decorative overlay 315 on a plunger holder (see col. 3, lines 63-65) where seasonal artwork "depicting various holiday scenes" is seen. This teaches removal of one scene in favor of another. To provide for the removal of the flower of Poston in light of these teachings would have been obvious to the ordinary artisan.

Applicant refers to "the new C-I-P application, however, no reference to a parent is included and no mention of a parent is evident in the specification or oath. This should be corrected.
